iQ LIGHTS

THE PRO'S CHOICE FOR SMART LANDSCAPE LIGHTING

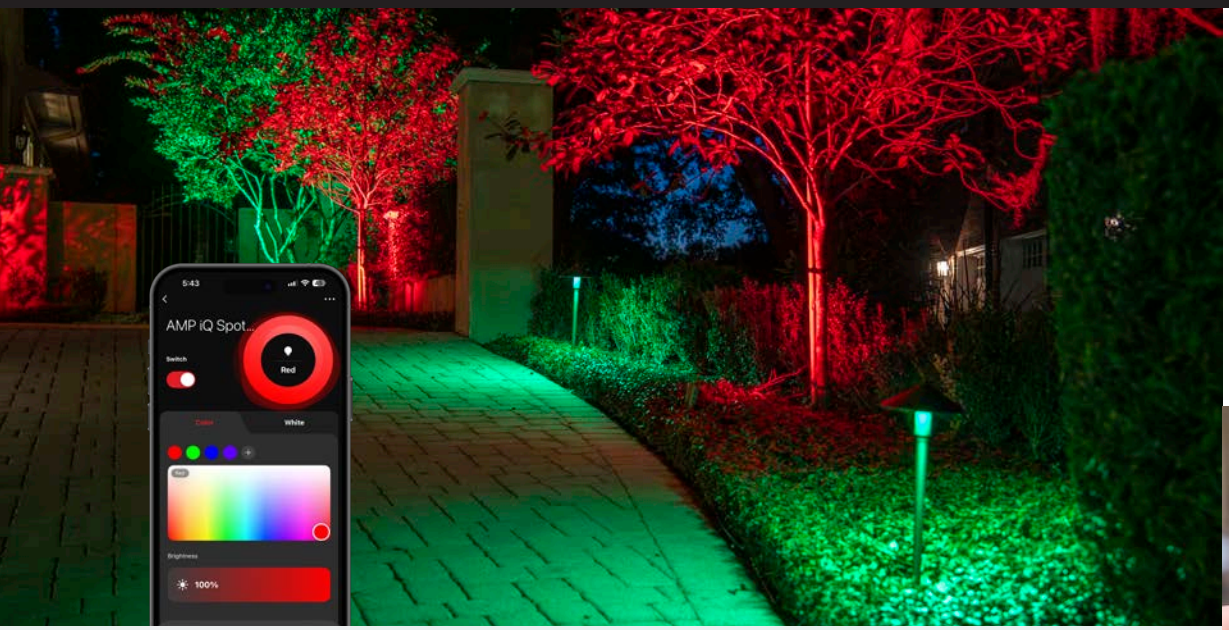

Smart is a secure, U.S. cloud-based, wireless control system designed for your customers to fully customize their landscape lighting right from their mobile device.

- **Full RGBCW Capabilities**
- **Automations & Schedules**
- **Individual Fixture Control & Grouping**
- **Custom Dynamic Effects**
- **Bluetooth Mesh Network**
- **Easy Installation**
- **Downloadable on IOS & Android**
- **Alexa® & Google® Integration**

iQ LIGHTS

SMART LANDSCAPE LIGHTING SYSTEM

FEATURES & BENEFITS

Remote Control: Securely access and manage smart landscape lighting from anywhere, supported by U.S.-based servers.

Quick Setup: Easily add and customize fixtures in minutes to get the Smart lighting system up and running fast.

Full Color Changing: Select from millions of colors, pre-set colors, and set favorites to create the ideal ambiance for any event, holiday, or mood.

Color Temperature Adjustment: Fine-tune white light temperatures and brightness levels, or select from 6 pre-sets (2200K, 2500K, 2700K, 3000K, 3500K, or 4000K) to suit any outdoor setting.

Custom Presets: Save preferred lighting setups, or choose from pre-sets (i.e. Christmas, Patriotic, etc.), and apply them instantly.

Automatic Scheduling: Set on/off schedules based on sunset and sunrise to automate lighting times.

Voice Control: Control lighting hands-free with Alexa® and Google Assistant® integration.

Hassle-Free Lifetime Warranty: Covering all fixtures

ALL **SMART ACCESSORIES**

SMART GATEWAY

- THIS COMPONENT LIVES INSIDE THE HOME, CONNECTS TO THE WIFI, AND TALKS TO THE FIXTURES AND TRANSFORMER VIA BLUETOOTH

SMART REPEATER HUB

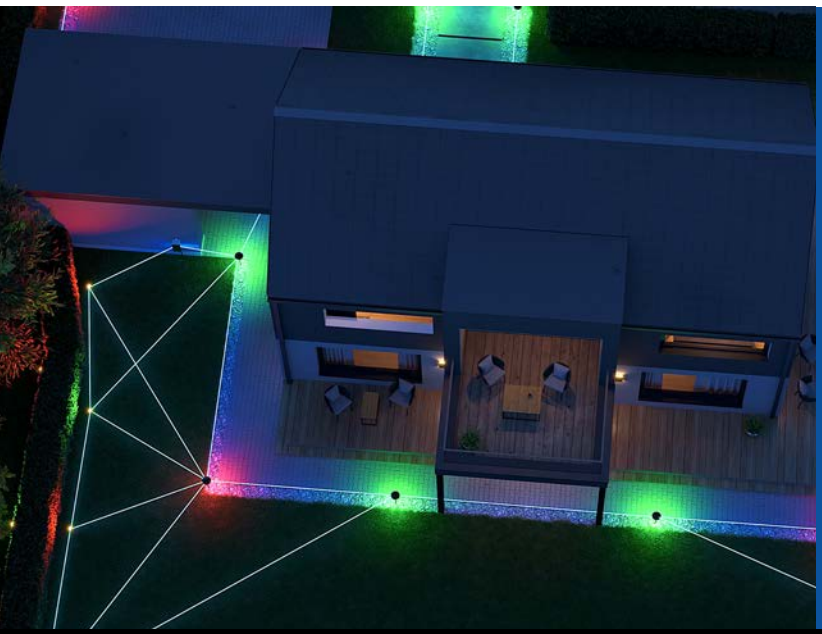

- WORKS AS A TRADITIONAL HUB AND A BLUETOOTH SIGNAL REPEATER

Stainless Steel

SMART LOW VOLTAGE TRANSFORMER

300W 15V

Bluetooth Mesh Connection

Smart uses the latest Bluetooth Mesh technology for reliable communication between fixtures. With capabilities of up to 100 feet between fixtures for consistent performance. The robust Smart network allows each fixture to continuously send and receive data providing greater installation flexibility.

Easily install the smart lighting system for large and small installations. The Bluetooth Mesh technology provides excellent connectivity around obstacles like concrete walls or barriers, large trees and architectural elements. Additional devices, such as the smart Repeater Hub offer additional assistance around solid obstacles. Once the lights and devices are energized the smart app automatically discovers the devices and with a tap in the app, they become associated and create a mesh network. Within a few minutes the system is ready for use and can be controlled globally with your personal device.

SPOTLIGHTS

If landscape lighting is painting with light, then spotlights are the brushes. Spotlights are used for emphasis in outdoor lighting – to call attention to specific architectural or landscape features. Unlike flood lights that shed light across a wide area, spotlights have narrower beams so they can focus on one thing at a time.

PATH LIGHTS

To enhance the safety, security and beauty of walkways, gardens, patios and other spaces, 12V pathway lights must deliver the right amount (and quality) of illumination.

MAGNUMPRO™
Path & Area Light (Lamp-Ready | G4)

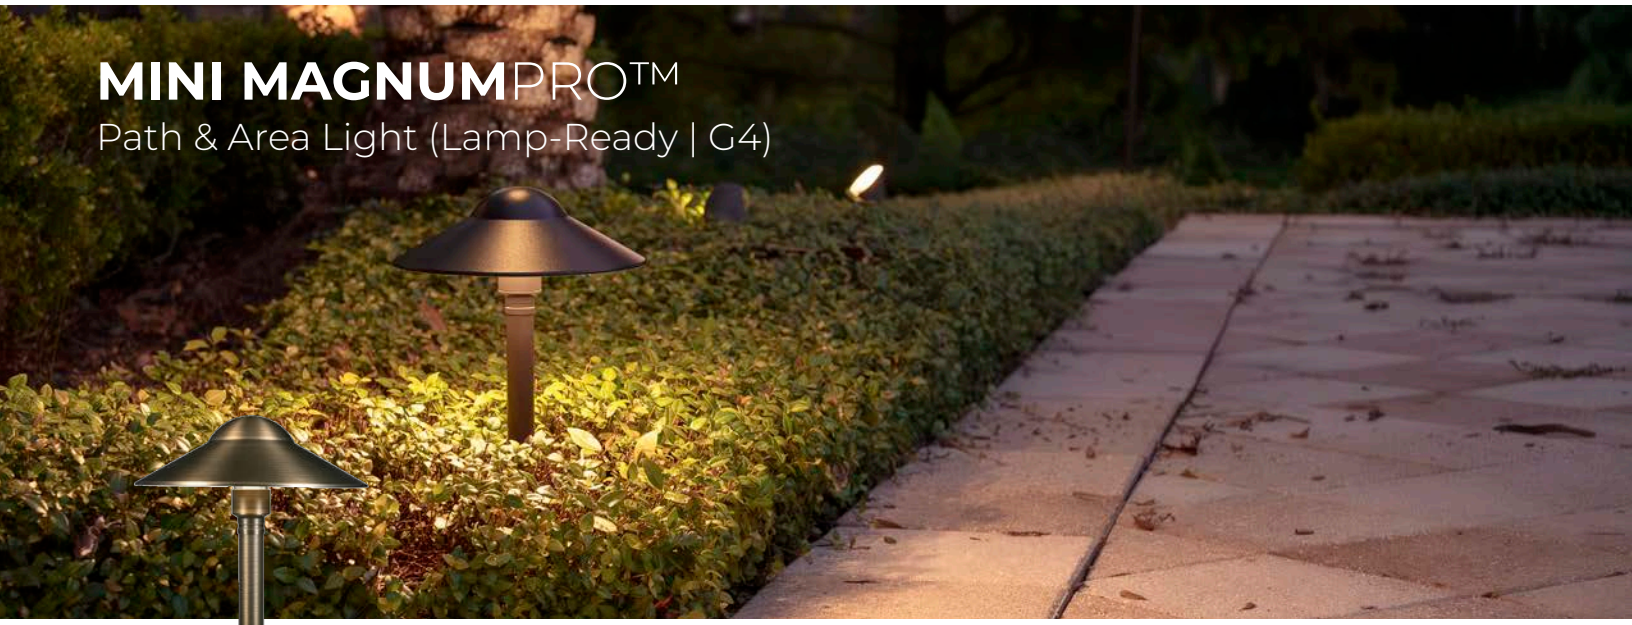

FINISH OPTIONS

BRASS BRONZE | BRASS BLACK | STAINLESS STEEL | COPPER

AAR-3516

The MagnumPro™ Path Area Light (Lamp-Ready) has a sleek and modern design. It features our widest hat and can project LED light to produce a generous region of illumination. It contains a G4 socket and uses a replaceable G4 Bi-Pin bulb.

- Cast Brass Construction
- 16’ Beam Spread Diameter
- 4’ or 25’ 18AWG Lead Wire
- Up to 425 Lumens

MINI MAGNUMPRO™
Path & Area Light (Lamp-Ready | G4)

FINISH OPTIONS

BRASS BRONZE | BRASS BLACK

AAR-MINI-3516

A miniature version of our most popular path light, the Mini MagnumPro features a 12” stem and offers a subtle 8’ beam spread and a less conspicuous appearance that seamlessly blends into any landscape design.

- Cast Brass Construction
- 8’ Beam Spread Diameter
- 4’ 18AWG Lead Wire
- Up to 425 Lumens

CONICAPRO™

Path & Area Light (Lamp-Ready | G4)

FINISH OPTIONS

BRASS BRONZE

BRASS BLACK

AAR-3514

The ConicaPro™ LED Path Area Light (Lamp-Ready) features durable cast-brass construction to resist physical and chemical challenges in the landscape. The fixture's appearance is simple and organic.

- Cast Brass Construction
- 12' Beam Spread Diameter
- 4' or 25' 18AWG Lead Wire
- Up to 425 Lumens

MINI CONICAPRO™

Path & Area Light (Lamp-Ready | G4)

FINISH OPTIONS

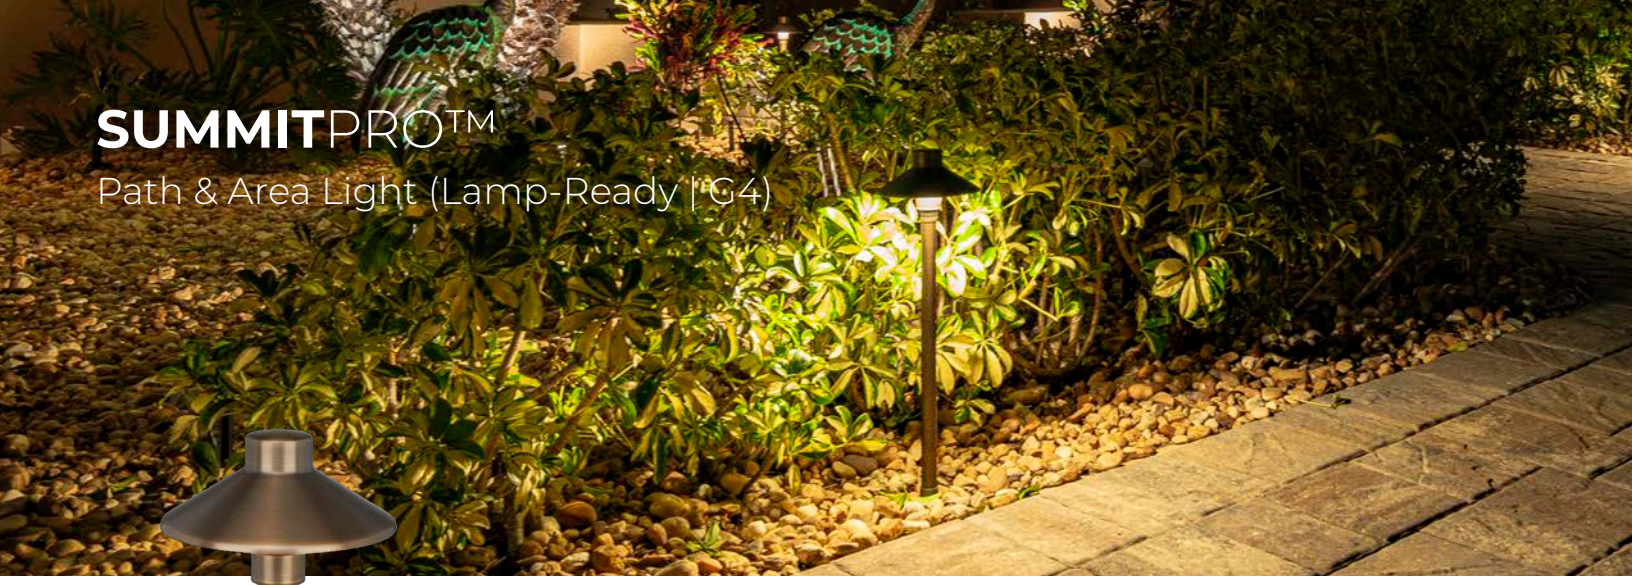

BRASS BRONZE

BRASS BLACK

AAR-MINI-3514

With its shorter 12" stem, this fixture offers a more subtle beam spread and a discreet presence, seamlessly blending into any landscape design. With an approximate 6' diameter beam spread, this mini path light is perfect for illuminating paths, driveways, flower beds, docks, and patios.

- Cast Brass Construction
- 8' Beam Spread Diameter
- 4' 18AWG Lead Wire
- Up to 425 Lumens

SUMMITPRO™

Path & Area Light (Lamp-Ready | G4)

FINISH OPTIONS

BRASS BRONZE

BRASS BLACK

AAR-3515

The SummitPro™ LED Path Area Light (Lamp-Ready) features a traditional and appealing architectural style. It is compact and projects a medium-sized soft-edged beam. Constructed of solid cast brass, the fixture will not bend or break.

- Cast Brass Construction
- 16’ Beam Spread Diameter
- 4’ or 25’ 18AWG Lead Wire
- Up to 425 Lumens

MINI SUMMITPRO™

Path & Area Light (Lamp-Ready | G4)

FINISH OPTIONS

DECK LIGHTS & STEP LIGHTS

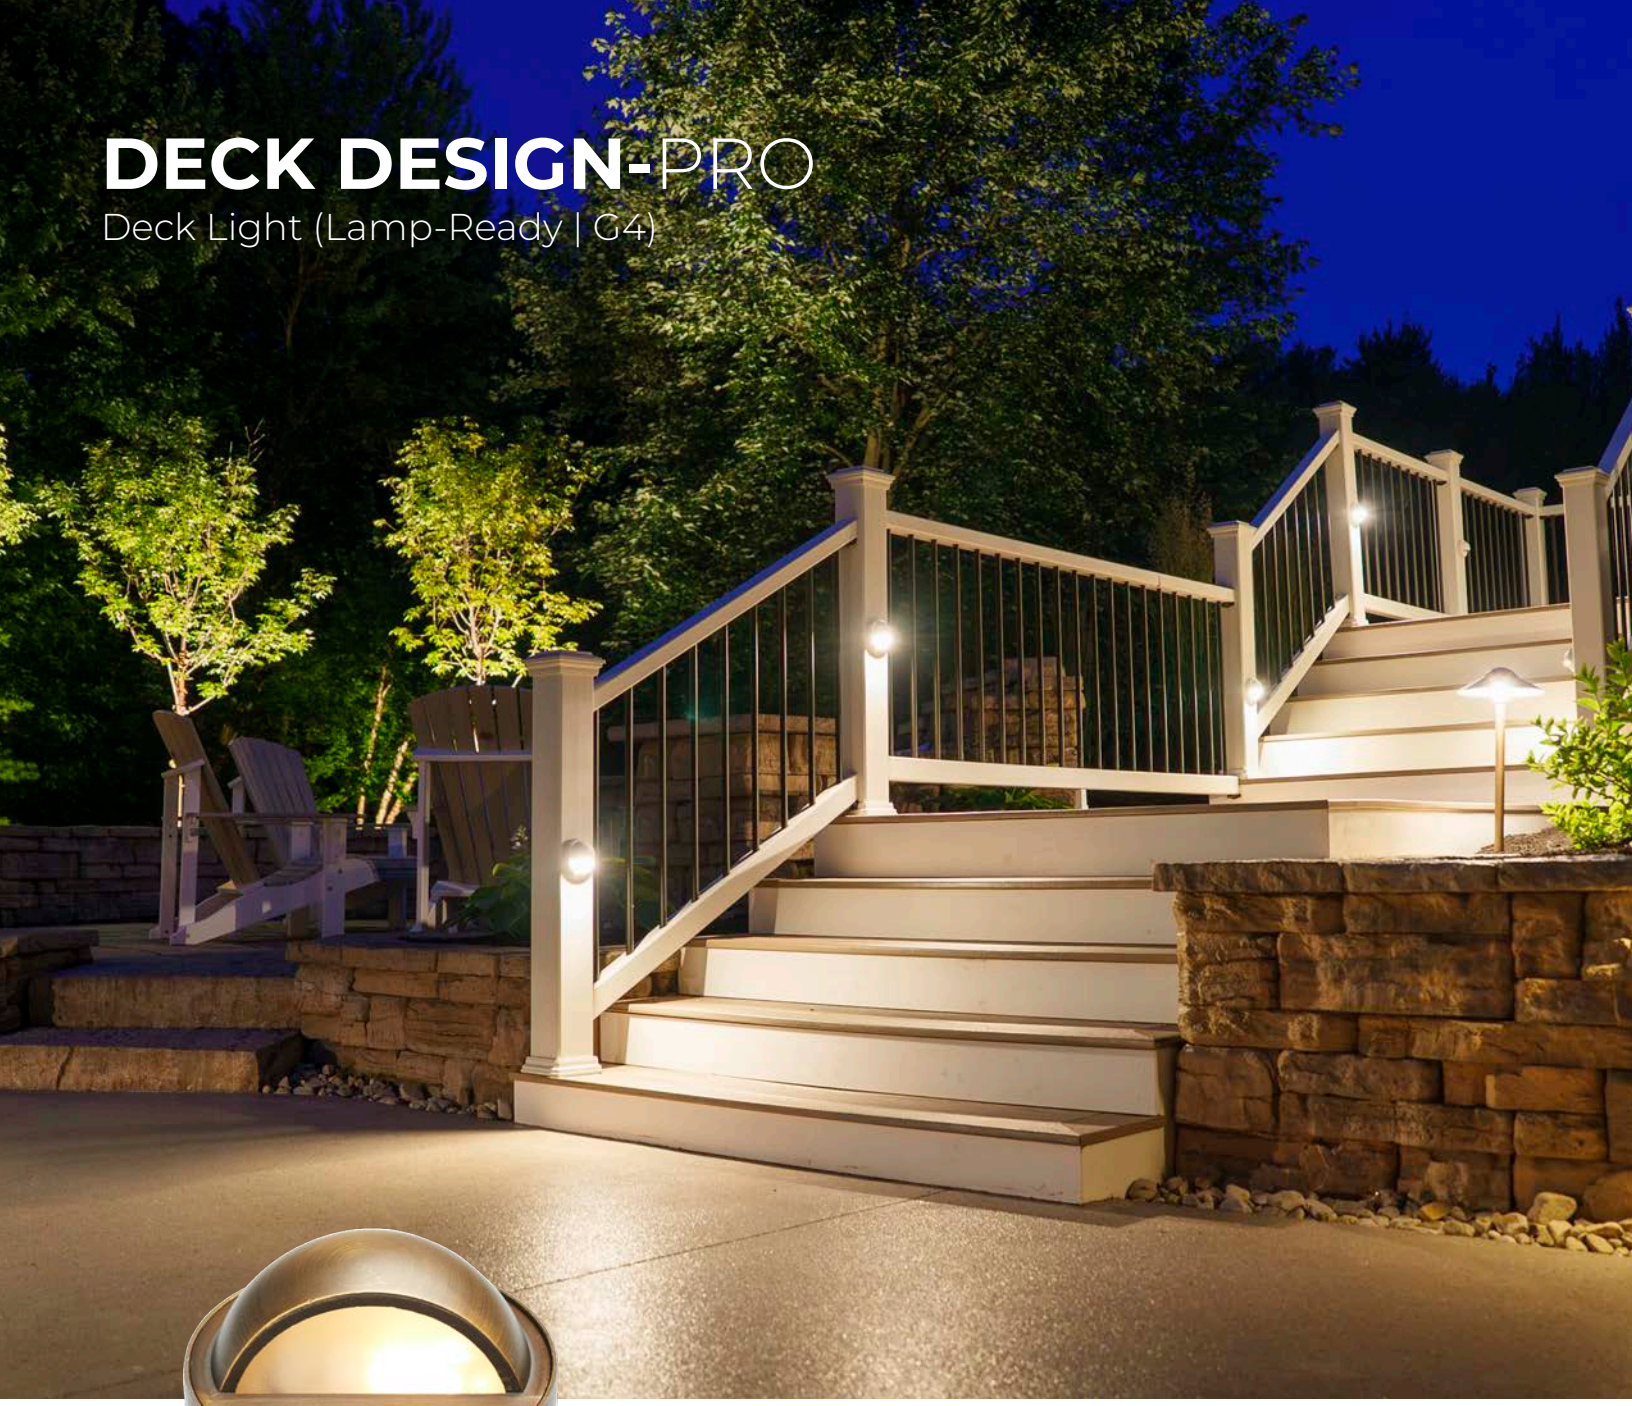

Deck lights are designed for downlighting on decks, docks, railings, posts and patios. Deck lights and step lights when used together allow for safe travel to and from outdoor patios, docks and much more.

DECK DESIGN-PRO

Deck Light (Lamp-Ready | G4)

FINISH OPTIONS

BRASS BRONZE

BRASS BLACK

BRASS WHITE

ADL-2010

The Classic Deck Light is an attractive solid cast brass fixture that features a circular, classic shape. Like all LED deck lights, this fixture does not project light above the horizon (full cutoff designation) making it Dark Sky compliant.

- Cast Brass Construction
- Frosted Lens
- 25' 18AWG Lead Wire
- UL & cUL® Listed

INFUSEPRO THIN

Step Light (Integrated)

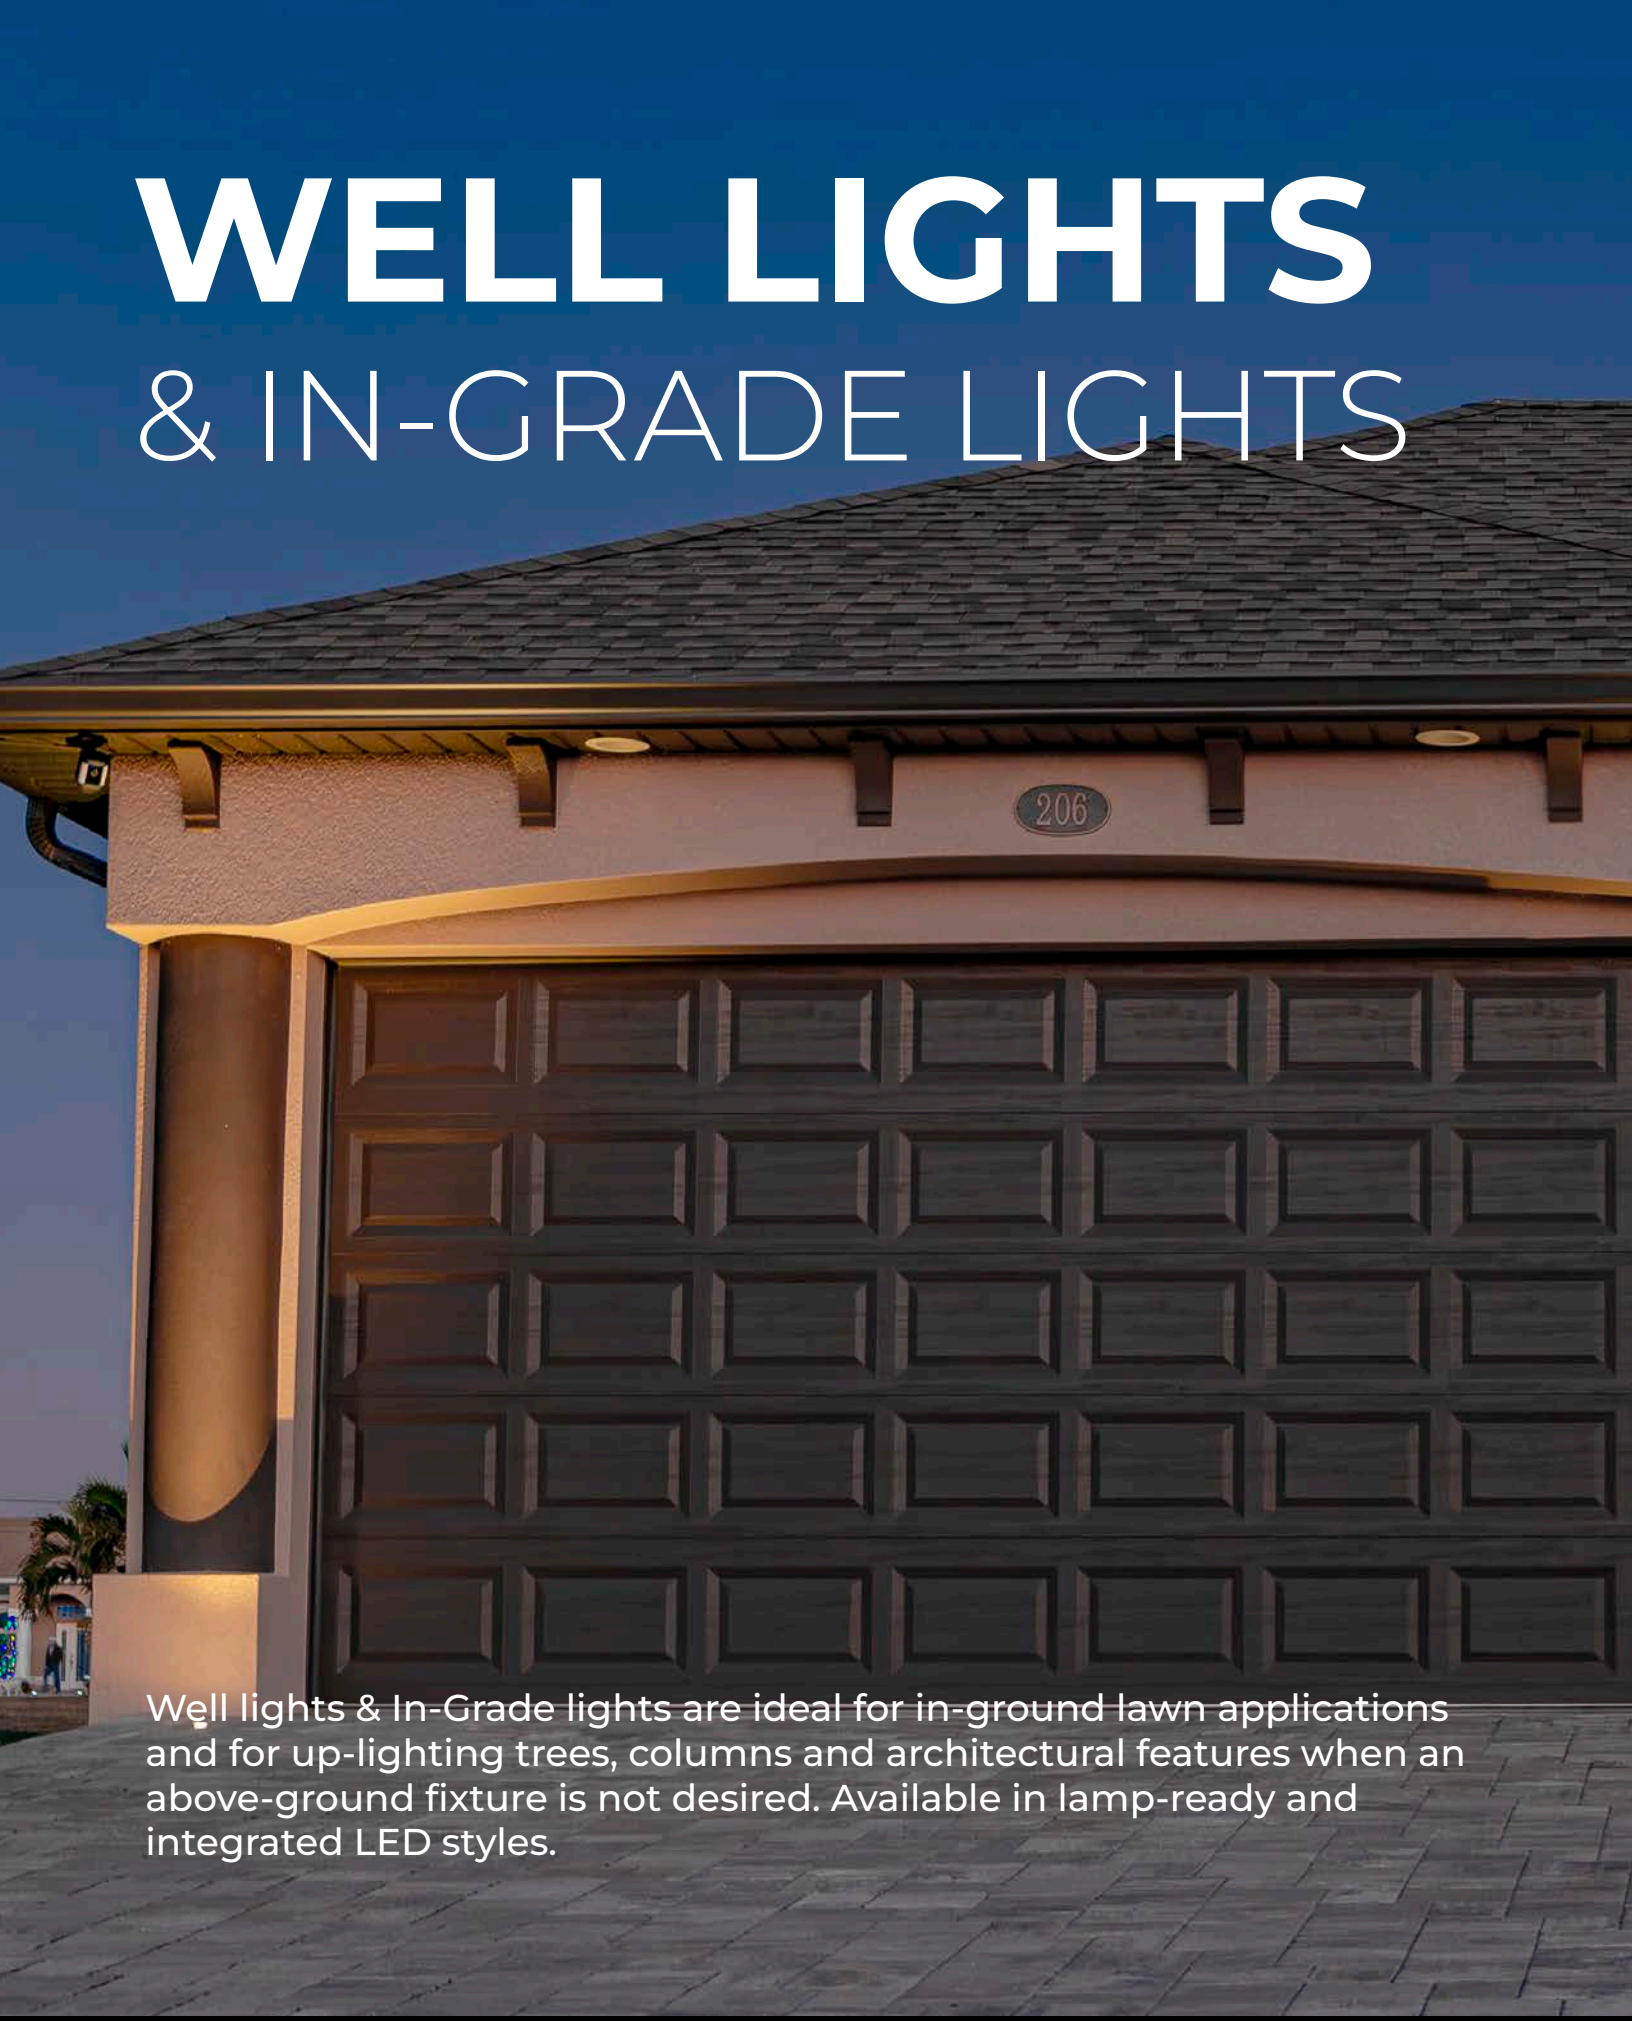

AHS-630(X)-25-B-BZ

X Represents different glare guard options

The InfusePro Step Lights are designed for simple installation for step-lighting applications. Compared to traditional recessed step lights, these low-profile integrated step lights are easy to install with the pre-drilled screw slots on the brass faceplates.

- Cast Brass Construction
- Frosted Lens
- 25’ 18AWG Lead Wire
- UL & cUL® Listed

WELL LIGHTS
& IN-GRADE LIGHTS

Well lights & In-Grade lights are ideal for in-ground lawn applications and for up-lighting trees, columns and architectural features when an above-ground fixture is not desired. Available in lamp-ready and integrated LED styles.

HYDRAPRO™ MR16

Well Light (Lamp-Ready | MR-16)

AWL-5007-B-BZ

The HydraPro™ LED MR16 Well Light is an absolutely waterproof fixture with an enhanced wire gland and a fully potted wire entrance for maximum protection against moisture and water intrusion.

- Cast Brass Construction
- PVC Well Housing
- 4’ or 25’ 18AWG Lead Wire
- UL & cUL® Listed

HYDRAPRO™ MR16

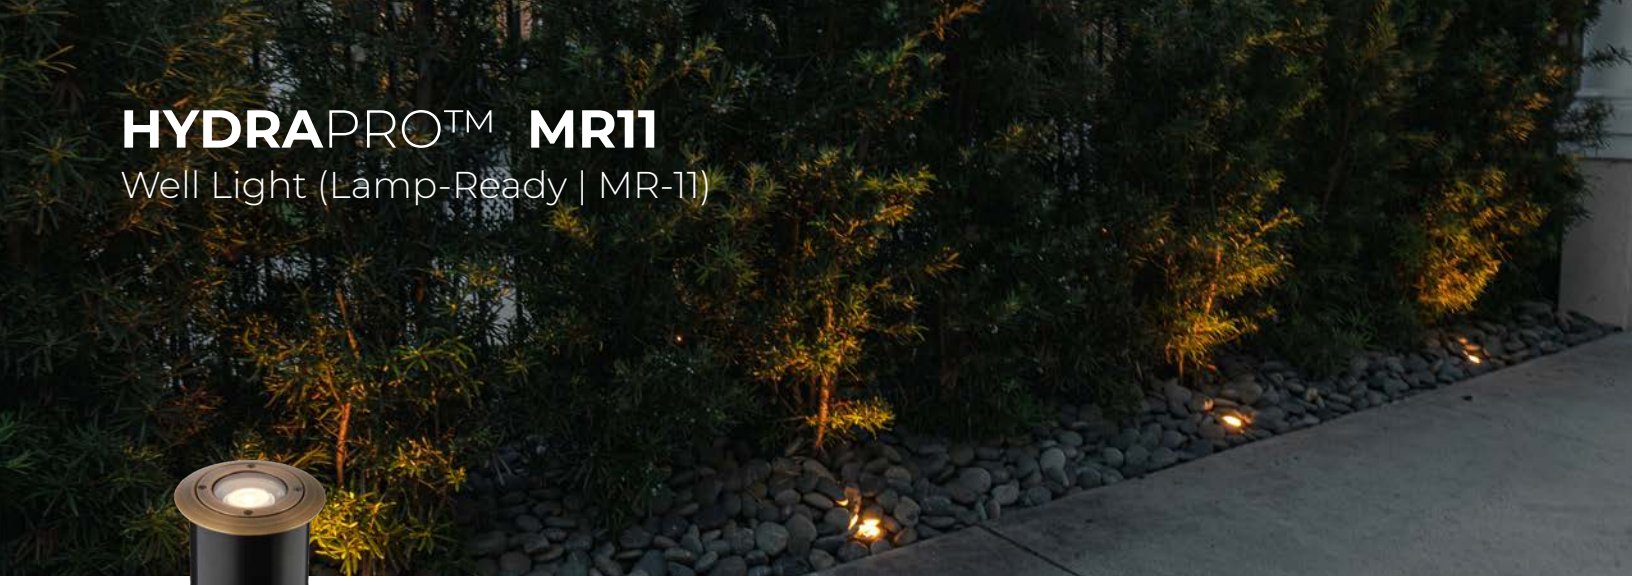

In-Grade Light (Lamp-Ready | MR-16)

AWL-5004-B-BZ

With an absolutely waterproof design, the fixture will withstand a lifetime of rain, irrigation water & flooding. This fixture is made from cold forged brass, which is less porous then cast brass and better suited for water-related conditions.

- Forged Brass Construction
- 4 Different Glare Guards
- 4’ or 25’ 18AWG Lead Wire
- UL & cUL® Listed

HYDRAPRO™ MR11

Well Light (Lamp-Ready | MR-11)

AWL-5005-B-BZ

The HydraPro™ LED MR11 Well Light is an absolutely waterproof fixture with an enhanced wire gland and a fully potted wire entrance for maximum protection against moisture and water intrusion.

- Forged Brass Construction
- 4 Different Glare Guards
- 4' 18AWG Lead Wire
- UL & cUL® Listed

HYDRAPRO™ MR11

In-Grade Light (Lamp-Ready | MR-11)

AWL-5006-B-BZ

brass flood lights allow for much slimmer body designs while still offering high lumen outputs and ultra-wide beam angles. Ideal for expansive areas, large features, and up-lighting tree canopies. The fixtures feature powerful, efficient integrated LED lights.

- Forged Brass Construction
- 4 Different Glare Guards
- 4' 18AWG Lead Wire
- UL & cUL® Listed

RGBW HYDRAPRO™
Well Light (Integrated)

AWL-5011IR-B-BZ

This single-source integrated LED well light is the first of the premium HydraPro™ series to offer powerful, vivid RGBW color-changing capabilities. Color modes and 10-step dimming options are unlocked using the ONE RGBW Remote Control.

- Forged Brass Construction
- 650 Lumen Max | 12 Watts
- 25' 18AWG Lead Wire
- UL & cUL® Listed

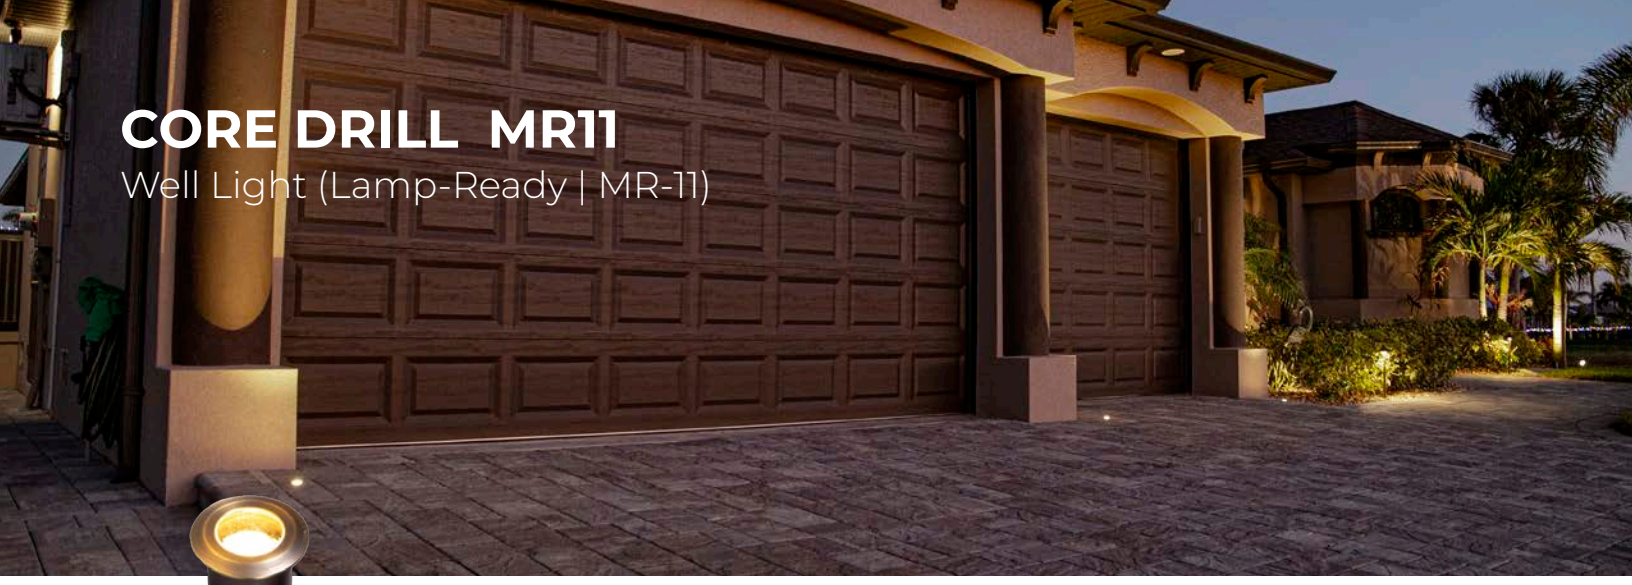

RGBW HYDRAPRO™

Well Light (Integrated)

FINISH OPTIONS

BRASS BRONZE

BRASS BLACK

IR

AHS-7014

A discreet, low-profile RGBW light that provides a subtle light ideal for decks, floors, steps, and other low-light applications where indication is preferred over illumination. Remote control required for color-changing (sold separately).

- Cast Brass Construction
- RGBW & 2700K
- 10’ 18AWG Lead Wire
- UL & cUL® Listed

BURROWPRO **PAR36**

Well Light (Lamp-Ready | PAR36)

AWL-5000-B-BZ

This fixture has a thick cast brass grate with thick tempered flat glass sealed under the grate. The brass cap alone weighs more than a standard complete well light fixture. Keeps debris, mulch, and leaves out. Various lens options sold separately for fine-tuning illumination specific to your needs.

- Forged Brass Construction
- Tempured Flat Glass
- 4’ 16AWG Lead Wire
- UL & cUL® Listed

PAR36

Well Light (Lamp-Ready | PAR36)

AWL-5000-P-BK

The PAR36 Well Light is great for installing in turf or mulch beds for an assortment of uplighting applications. A perfect substitution for a spotlight where an in-ground fixture is desired. The low-profile design keeps the fixture hidden but results in effective lighting.

- Reversible PVC Tube
- Optional Debris Cover
- 4’ 16AWG Lead Wire
- UL & cUL® Listed

HARDSCAPE LIGHTS

Use hardscape lights to illuminate hard surface areas with soft light, especially when a patio or walkway extends right up to a wall and a path light can't be placed there. This can make the area much more accessible and enjoyable at night, while also highlighting the qualities of unique wall materials.

There are two common applications when installing a hardscape light: install it into a retaining wall with dirt behind it, or into a free-standing wall that's open on both sides.

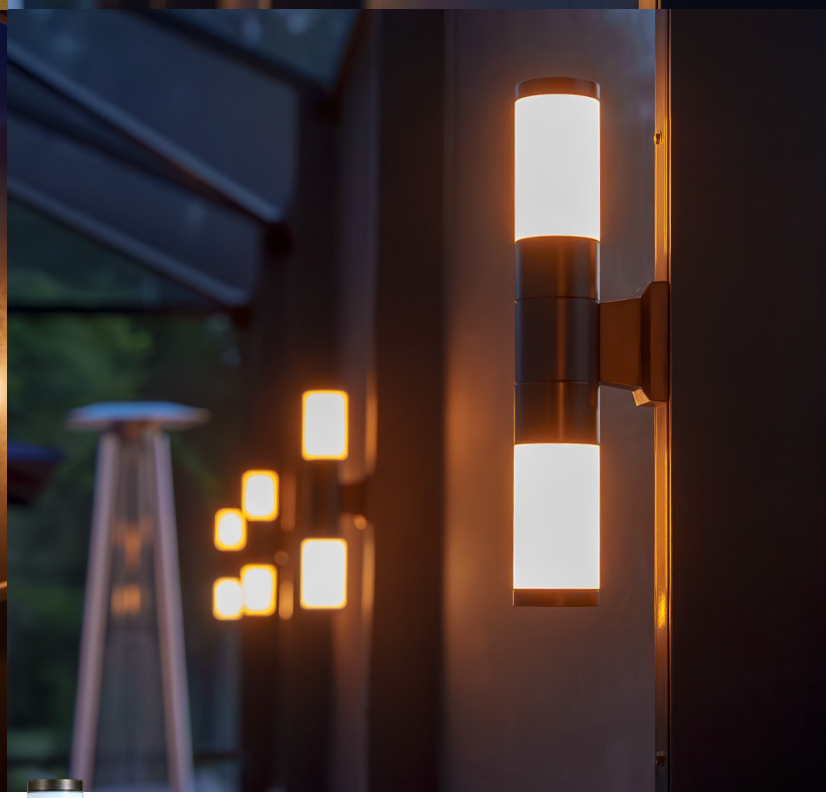

CUSTOMIZABLE UP/DOWN SCONCE

Hardscape Light (Lamp-Ready | MR16)

AHS-7003-B-BZ-R2

The solid cast brass construction of this sconce ensures unmatched durability and longevity, making it a reliable choice for even the most demanding outdoor environments. Its antique bronze finish will patina overtime to naturally blend with surrounding features.

- Cast Brass Construction
- 16 Different Configurations
- 25' 18AWG Lead Wire
- UL & cUL® Listed

CUSTOMIZABLE UP/DOWN SCONCE

Hardscape Light (Lamp-Ready | MR16)

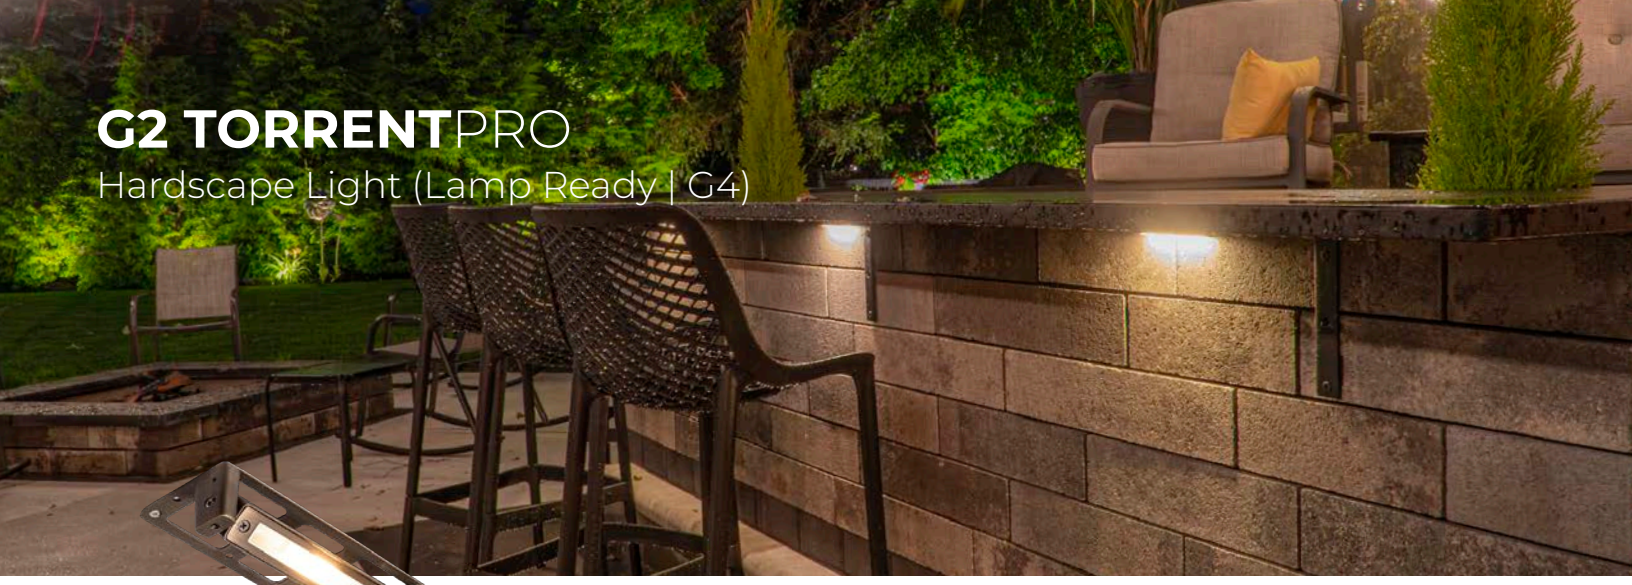

AHS-7003-B-BK-R2

The solid cast brass construction of this sconce ensures unmatched durability and longevity, making it a reliable choice for even the most demanding outdoor environments. Its black powder-coat finish not only enhances its durability but also offers universal matching ability, allowing you to seamlessly integrate it into any architectural or landscape design.

- Cast Brass Construction

UNDERWATER LIGHTS

Our underwater LED lights are known throughout the outdoor lighting industry for their robust build quality and beautiful design. These watertight fixtures are perfect for lighting up your pond, fountain or any other water feature.

HYDRAPRO™ MR16

Underwater Light (Lamp Ready | MR16)

AUL-8003-B-BZ

Fully submersible and absolutely waterproof, this light features a low profile, forged brass construction and is designed to accept the line of LED MR16 lamps. Choose from our extensive line of LED MR16 lamps.

- Forged Brass Construction
- IP68 Rated
- 25' 18AWG Lead Wire
- UL & cUL® Listed

HYDRAPRO™ MR11

Underwater Light (Lamp Ready | MR11)

AUL-8002-B-BZ

Ideal for applications where a low-profile submersible light is desired. The HydraPro™ Underwater Light is constructed of cold-forged brass which is better suited for water-related conditions.

- Forged Brass Construction
- IP68 Rated
- 25' 18AWG Lead Wire
- UL & cUL® Listed

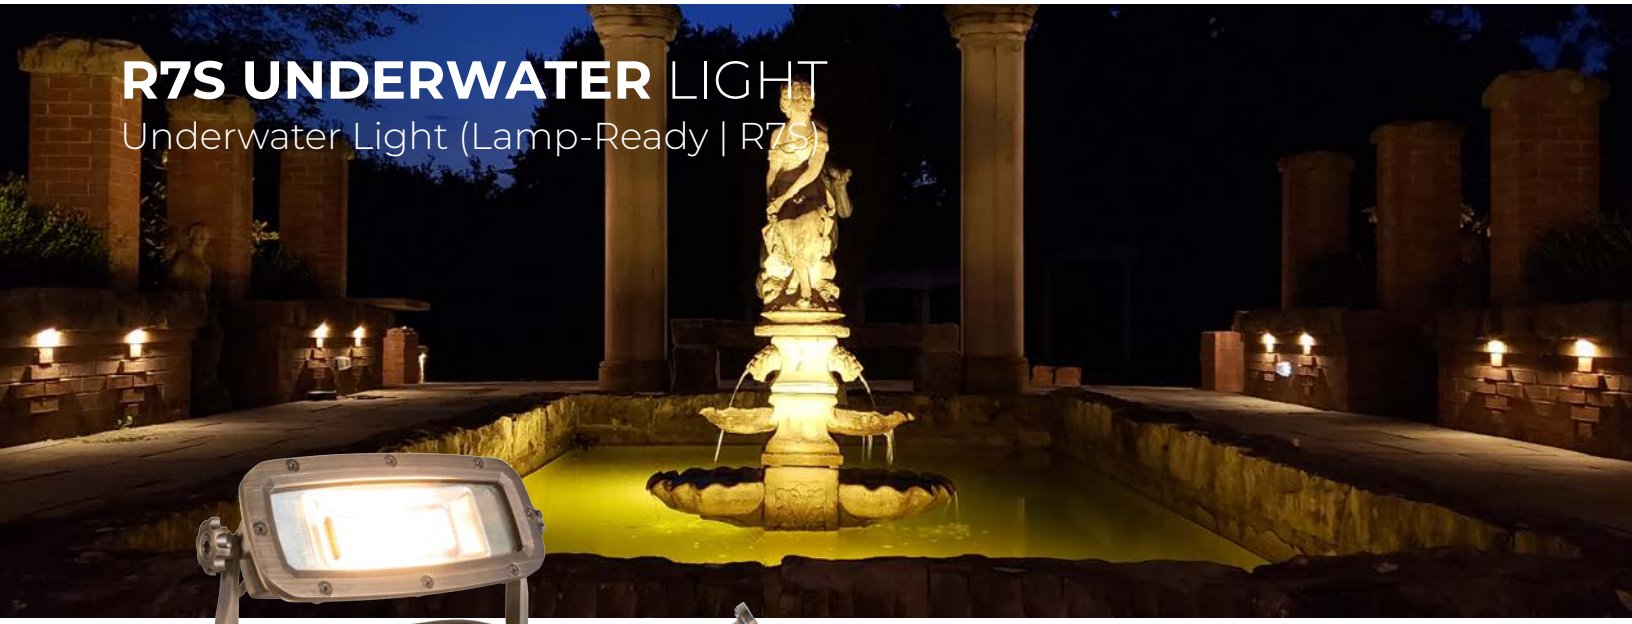

RGBW HYDRAPRO™
Underwater Light (Integrated)

AUL-8005IR-B-BZ

This single-source integrated LED underwater light is the first of the premium HydraPro™ series to offer powerful, vivid RGBW color-changing capabilities. With 12 watts and a max output of 650 lumens, this underwater light is suitable for many different applications.

- Forged Brass Construction
- IP68 Rated
- 25' 18AWG Lead Wire
- UL & cUL® Listed

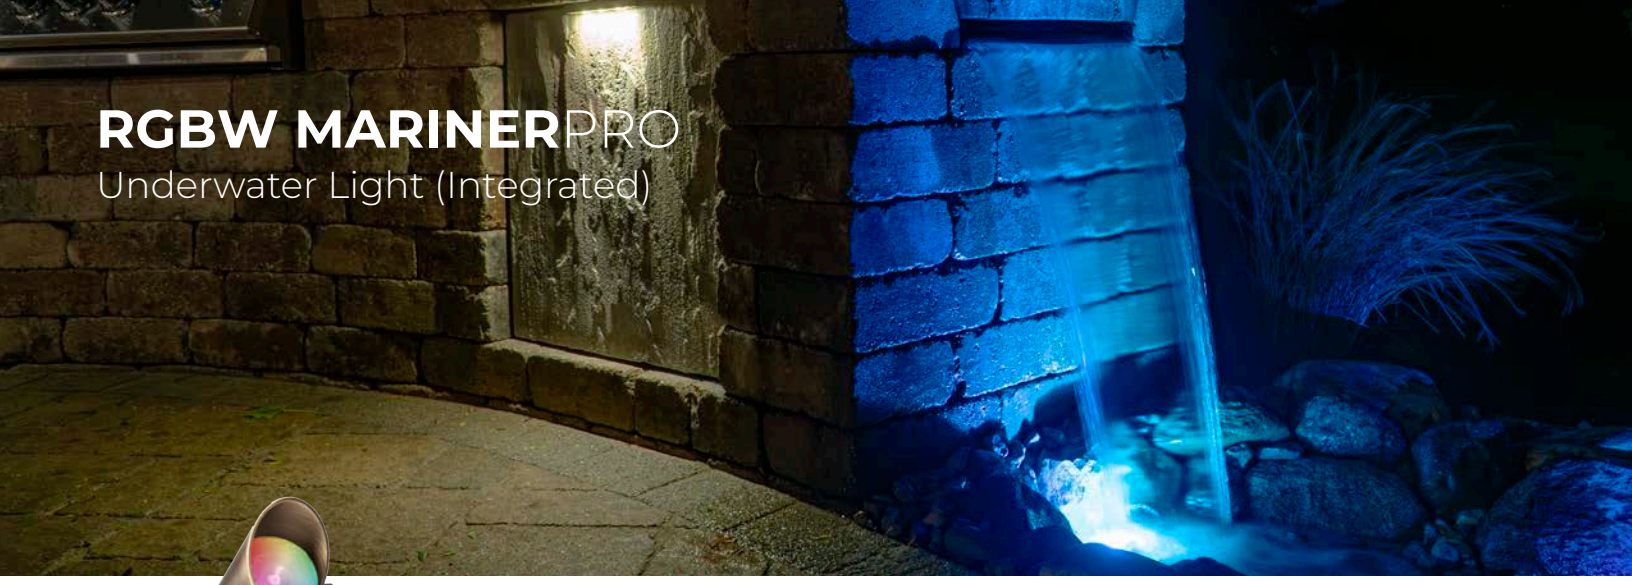

R7S UNDERWATER LIGHT
Underwater Light (Lamp-Ready | R7S)

AUL-8006-B-BZ

Designed for use in larger ponds and fountains, the R7S Underwater Light offers powerful, widespread illumination. The cold forged brass construction is durable and is ideal for underwater use.

- Forged Brass Construction
- IP68 Rated
- 25' 18AWG Lead Wire
- UL & cUL® Listed

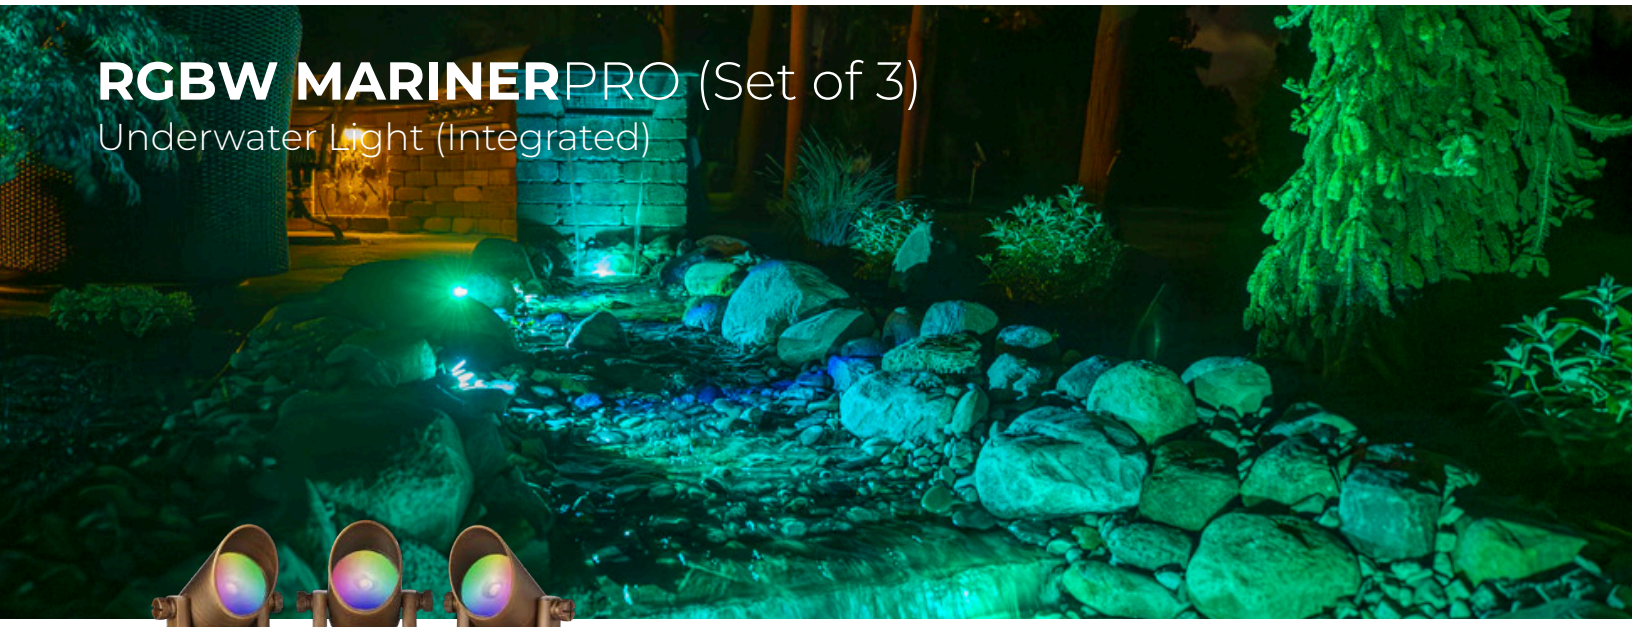

RGBW MARINERPRO
Underwater Light (Integrated)

AUL-8009-25-B-BZ-R1

With 80 lumens of output of a warm 2700K glow, this underwater light also features color changing capabilities to give clients the ultimate customization of their pond and fountain illumination.

- Cast Brass Construction
- RGBW
- 25’ 18AWG Lead Wire
- UL & cUL® Listed

RGBW MARINERPRO (Set of 3)
Underwater Light (Integrated)

AUL-8009-34-B-BZ-3PK-R1

This 3-set of miniature underwater lights are permanently wired together for fast and easy installation. The low profile of these fixtures makes them ideal for shallow water (3” or more) - typically used in the middle or upper levels of fountains.

- Cast Brass Construction
- RGBW
- 18’ 18AWG Lead Wire
